

Assignment 2:

2. Visit Internet Society site at <http://www.isoc.org> and then answer the following questions:

- a) Why was the Internet Society created?
- b) Determine which local chapter is closest to you. Visit its website. List the website's URL and an activity or service that the chapter provides.
- c) How can you join the Internet Society? What does it cost to join? Would you recommend that a beginning Web developer join the Internet Society? Why or why not?

The Answer:

- a) Why was the Internet Society created?

The Internet Society (ISOC) was established in 1992 by Internet pioneers Vint Cerf, Bob Kahn, and others to support the open development, evolution, and use of the Internet for the benefit of all people worldwide. Its mission encompasses providing leadership in Internet-related standards, education, access, and policy. ISOC serves as a platform to foster collaboration among organizations involved in the Internet's operation and use, aiming to ensure the Internet remains open, globally connected, secure, and trustworthy .

b) Determine which local chapter is closest to you. Visit its website. List the website's URL and an activity or service that the chapter provides.

As you're located in Mersin, Türkiye, the closest local chapter is the Internet Society Türkiye Chapter.

Website URL: <https://isoc.org.tr>

Activity/Service: The Türkiye Chapter has been actively involved in promoting STEM education among girls. Notably, it won the 2017 Chapterthon competition with its "Coding Sisters" project, which aimed to optimize opportunities for girls to be involved in STEM fields .

c) How can you join the Internet Society? What does it cost to join? Would you recommend that a beginning Web developer join the Internet Society? Why or why not?

Joining the Internet Society:

How: You can join the Internet Society by visiting their official website and signing up as an individual member.

Membership is open to anyone interested in the future of the Internet.

Cost: Membership is free of charge. There are no fees associated with joining as an individual member .

Recommendation for Beginning Web Developers:

Yes, I would recommend that a beginning web developer join the Internet Society. Here's why:

Access to Resources: ISOC provides a wealth of resources, including industry-leading online courses and materials that can enhance a developer's understanding of Internet technologies .

Community Engagement: Being part of ISOC connects you with a global community of professionals and enthusiasts, offering networking opportunities and insights into best practices.

Staying Informed: Membership keeps you informed about the latest developments in Internet standards, policies, and technologies, which is invaluable for a web developer aiming to stay current in the field.

Advocacy and Impact: ISOC members have opportunities to participate in

initiatives that shape the future of the Internet, allowing developers to contribute beyond coding.

Joining ISOC can be a significant step for a web developer to grow professionally and contribute to the broader Internet community.
